

DD/A/ODP WEEKLY REPORT

Week of 7-14 October 1981

I. Major Activities During the Past Week:

A. Support to OICE:

CAMS (COMIREX Automated Management System) [ ] briefed the CAMS2 System Concept Overview to the Program Integration Committee on 9 October. This is the briefing which was given to ODP Management the previous week and which has been well received in each case. [ ]

The status of the release date for the QA RFP is uncertain. The bidders conference has been held (2 Oct) and the requests for the RFP have been received (9 Oct). However, several of the companies do not have backup alarm systems and Security cannot clear the facilities to receive the document. The QA Group is working with Logistics [ ] and with Security [ ] to resolve this problem and release the RFP. [ ]

[ ] met with TRW and QSI representatives to discuss the Government's concerns over portions of the CAMS2 Configuration Management Plan. Subsequent meetings with QSI personnel have resulted in a good exchange of ideas with plans for a rewrite of portions of the document. [ ]

B. Support to OF:

Biweek Payroll System. We executed the Master File Update Cycle for the Office of Finance test team using PP 20 production data and OF-supplied test data. All the reports have been given to the OF test team for verification of the program modifications due PP 01/82. [ ]

C. Support to ODP:

GRAPHICS. The Chromatics CGC 7900 terminal was delivered to B Division and installed on 9 October. Initial checkout has uncovered no problems. Checkout will continue during the week of 13 October. [ ]

[ ] of ODP met with [ ] Polaroid Corporation, to discuss the quality of Polaroid's new T-891 8X10 instant transparency film. The film can be used with a MATRIX or DUNN Camera system to produce instant vugraph transparencies from a color

graphics terminal. The film is rather expensive (\$6.50 per exposure) and requires time to produce one copy (30 sec. to expose, 4 min. to develop and an hour until it is dry to the touch) but produces presentation quality color transparencies in a reasonable amount of time. [REDACTED]

II. Personnel Items:

[REDACTED] left A Div. to report to the Training Staff as its new Chief. He can be reached on [REDACTED]
